GoldHour

One wedding on the desk

GoldHour is the studio desk — not an album for brides. Save the enquiry, send the quote, collect the advance, then shoot. 14-day trial, then Studio ₹999 / mo month.

01 Open GoldHour

On your phone or laptop go to goldhour-chi.vercel.app. Use Chrome. Keep only one GoldHour tab open so two people do not overwrite the same booking.

02 Try the demo, or create your studio

Demo: Log in, PIN 2026 (Meenakshi Frames, sample couples). Your studio: Get started. Studio name, your name, city, 10-digit mobile. Confirm the SMS OTP, then email and an 8+ character password. 14 days free.

03 Save the enquiry the same hour it arrives

Desk !' Leads !' new. Couple name, phone, wedding date, venue, city, budg Instagram, referral). Status starts as New. The couple leaves chat and sits on the desk.

04 Send a quotation

Open the lead ⁉ quotation. Package splits into Advance, Before wedding, F
PDF. Tap WhatsApp — GoldHour writes the message; you send it from your phone. Mark Quoted.

05 Follow up without hunting in chat

Set Next action and a date (2 days, then 5 if silent). Follow-ups shows who is due. The bell reminds you. WhatsApp drafts are ready for a gentle check-in.

06 Collect the advance, then Book

When UPI lands, record it as Advance. Status ⁉ Accepted, then Booked. O
Before wedding and Final delivery are in. Do not leave advances as screenshots in WhatsApp.

07 Wedding week

Open the booked lead. Tick events (engagement, mehendi, wedding, reception). Fill the day timeline so a second shooter can follow it. Bookings lists every date you have already taken.
